ANNUAL REPORT

OF THE

Commissioner of Banks

FOR THE

YEAR ENDING DECEMBER 30, 1939

Part IV

RELATING TO

CREDIT UNIONS

DEPARTMENT OF BANKING AND INSURANCE

The Commonwealth of Massachusetts

OFFICE OF THE COMMISSIONER OF BANKS,
STATE HOUSE, BOSTON, JANUARY 17, 1940.

To the Honorable Senate and House of Representatives:

In accordance with the mandate contained in General Laws, Chapter 167, Section 9, the Commissioner of Banks herewith submits this abstract of his annual report for the year ended October 31, 1939.

Respectfully yours,

WILLIAM P. HUSBAND, JR.,
Commissioner of Banks.

As of October 31, 1939, there were under the supervision of this department 881 institutions, with aggregate assets in the amount of \$4,690,005,721.28.

	<i>Assets</i>
192 Savings Banks	\$2,393,217,720.87
1 Mutual Savings Central Fund	3,466,845.02
1 Deposit Insurance Fund	6,998,573.91
72 Trust Companies	1,823,415,399.30
184 Co-operative Banks	392,630,330.53
1 Co-operative Central Bank	1,822,177.12
1 Share Insurance Fund	2,747,701.90
1 Mass. Hospital Life Insurance Co.	24,301,558.51
402 Credit Unions	23,828,577.83
1 Central Credit Union Fund, Inc.	50,120.12
17 Corporations doing business under the Morris or similar plans	12,013,767.14
4 Savings and Loan Associations	4,615,663.76
1 Foreign banking corporation, branch office	897,285.27
3 Persons, partnerships or corporations receiving deposits for transmission	
881	\$4,690,005,721.28

These institutions show a growth during the year, as represented by an increase in assets amounting to \$108,172,235.21.

The progress of our banks should be measured from the point of view of soundness as well as by increase in size as measured by the dollar volume of assets, deposits or shares. It is most important that our institutions be maintained on a sound basis regardless of size and I prefer to think of our progress on that basis rather than from increase in assets or increase in deposit and share liabilities.

Analysis of the statements contained in this Report pertaining to Savings Banks, Trust Companies, Co-operative Banks and Credit Unions reflects the favorable fact that our institutions have progressed during the year along all three lines, namely, soundness, increased assets, and increased deposit and share liabilities.

During the past year much has been written and spoken on the subject of banks refusing to loan money. This statement as applied to Massachusetts appears definitely as a myth. It is difficult to believe that lending institutions with the available resources possessed by our banks would purposely freeze their money and refuse to put it to work. Consolidated statements of our Trust Companies clearly show that these institutions have increased their outstanding unsecured loans to borrowers during the year over nine million dollars, representing an increase of 12 per cent. The available resources for further loans, in spite of this increase of nine million dollars in disbursements, has also appreciably increased. The amount of available credit contained in the liquid assets of our Trust Companies sets forth the fact that the banks really have a problem of trying to obtain loans rather than purposely refraining from making them. It is unfortunate that general propaganda contrary to the facts is circulated but I am sure the public at large will agree that the statements made on this subject, if true in any other part of the United States, definitely are not so as applied to our Massachusetts institutions. Experiences of the year show that the leading institutions of this Commonwealth are satisfying the requirements of the individual communities through their loaning facilities and it is very evident that sound loans are not being refused by our banks.

Pertinent information relative to the several classes of our financial institutions is set forth under their individual sections in the complete Annual Report of this department; facts and figures will be found therein under the heading Savings Banks, Trust Companies, Co-operative Banks and Credit Unions.

RECOMMENDATIONS FOR LEGISLATION

This Annual Report contains no recommendations for legislation due to the fact that the Legislature does not convene in regular biennial session during the calendar year 1940.

CREDIT UNIONS

On December 31, 1939, there were 402 Credit Unions in operation, an increase of sixteen during the year, twenty-two having commenced business and six having entered into voluntary liquidation. On October 31, 1939, the date of the last available report, there were 402 Credit Unions having assets of about \$23,800,000, representing an increase of nearly \$3,000,000 from the corresponding date of the previous year.

From 1910, when Credit Unions first began to operate in this State, assets increased steadily until 1929, when total resources amounted to about \$16,000,000. In the early years of the business depression, assets showed a steady decline and reached a low point of about \$12,000,000 in 1933. From the latter point, the growth has been rapid until today the assets are nearly double the amount shown six years ago.

Among the Credit Unions that commenced business during the year, those of the "occupational" type predominated. Experience has shown that this type of credit union, organized principally by employees of industrial concerns, has been uniformly successful and has resulted in marked benefits to the employer and to the employee. The proximity of the depository (particularly under the pay roll deduction plan) has encouraged thrift savings.

Credit Unions were designed to operate in the field of small loans for which they are particularly well adapted. They have shown to the best advantage and have suffered relatively small losses when they have confined their activities to such investments. Personal loans have increased about \$1,400,000 during the year and the total of such loans is now in excess of \$11,600,000. These loans are made generally for a period of one year on a weekly repayment basis.

It is interesting to note that an increase of \$3,000,000 in total assets has been accompanied by an increase of \$1,000,000 in liquid investments. This tendency to maintain a relatively high liquid reserve places these institutions in a position where they may not only render service to potential borrowers, but enables them, also, to meet promptly any demands by members for the withdrawal of funds.
